

Your mission matters

Manage your entire workforce from one accounting system

Using the Human Resources, Payroll and Employee Web Services modules, you can manage your entire workforce directly from one fund accounting system. These solutions were developed specifically for the unique reporting and communication challenges that nonprofit and government organizations face.

STREAMLINE WORKFLOW PROCESSES

Integration with the **Human Resources module** provides quick and easy reporting (including FMLA and EEO), tax form population and complex benefit plan calculations.

Additionally, you can streamline workflows through your organization by scheduling pay raises, review dates and benefit plan adjustments.

ON-DEMAND EMPLOYEE INFORMATION

With the **Employee Web Services module**, you can reduce informational requests and provide employees and managers with 24/7 self-service web access to their pay stub, timesheet entries, benefits information and other important employee messages.

HELP EMPLOYEES MOVE FORWARD

Using the **Payroll module**, you can produce timely and accurate pay for the employees who propel your organization's vision.

Generate fully allocated accounting entries, and keep comprehensive employee records that are fully tax compliant for both State and Federal forms.

Good fund accounting meets the complex fund tracking and flexible reporting requirements that are vital to a nonprofit's continued ability to serve its community.

Abila MIP Fund Accounting

Human Resources, Payroll and Employee Web Services
